

JUNIOR ENGINEER – PROJECT DEVELOPMENT CO2 (VIE) (M/F)

The Lhoist Group CO2 and Process Innovation Team located in Lhoist headquarters in Limelette, 25 kms from Brussels, is looking **for a Junior Engineer – Project Development CO2 (VIE)** In the framework of a V.I.E. project (volontariat international en entreprise), you will be working with a team of experts **during 1 year** with a possibility of renewal and hire. Our VIE program at Lhoist provides an opportunity to work on projects that **directly impact the organization**.

Lhoist Group and Our Sustainability Commitment

Lhoist Group is a family-owned company. We produce and supply lime, limestone and mineral solutions for an ever-growing range of applications, since 1889. We are a leader in our industry, with a company culture that is nurtured by strong values and entrepreneurial spirit. Our company, which has its roots and headquarters in Belgium, has grown from generation to generation and now has a presence in more than 25 countries around the globe with facilities in Europe, North America, Latin America and Asia-Pacific.

Reducing our carbon footprint is part of our overall commitment to develop Lhoist as a sustainable company. As a market leader in the industrial sector, it is our responsibility to plan ahead and be a part of this global transition from the start. Our strategy takes into account our three major pillars of sustainable development: planet, people and profit.
